

BHARATBENZ

# Happy Kids Ride Safe With BharatBenz

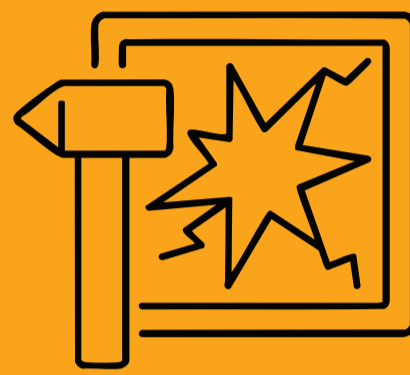

## Anti-lock Braking System

ensures better control and stability during sudden braking, reducing the risk of skidding and accidents, especially in adverse weather conditions.

## The school bus is equipped with an Automatic Hazard Warning System

that activates when the passenger door is open and the vehicle is stopped, ensuring enhanced safety for boarding and alighting students.

## All windows declared as Emergency Windows

for faster evacuation of passengers.

The school bus is equipped with the

## Largest Emergency Exit Door

to ensure a quick and safe evacuation for all students in case of an emergency.

## Anti-skid Floor Vinyl

to ensure safety and prevent slips.

## Fire Retardant

interior material enhances safety by reducing the risk of fire spread.

## The school bus is equipped with a reliable Fire Alarm and Fire Protection System

in both the engine and passenger compartments, ensuring early detection and rapid response to potential fire hazards. The system is concealed to prevent any risk of injury to children, prioritizing safety during transit.

## Boasts the highest Rollover Angle of 44°

ensuring superior safety and stability.

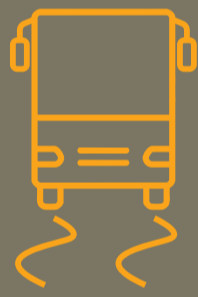

## The school bus is equipped with a Roof Hatch as an Emergency Exit

providing an additional escape route in case of accidents or other critical situations.

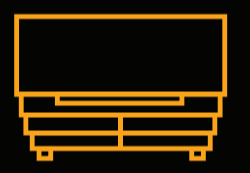

## Electronic Vehicle Stability Control (EVSC)

enhances school bus safety by preventing skidding and rollovers, ensuring better traction and stability during sudden manoeuvres or challenging road conditions.

## Under-seat Storage

providing kids with easy access and convenient space for their school bags.

## The bus is equipped with Comfortable Seats

that provide proper cushioning, support, and legroom, ensuring a safe and secure ride for students.

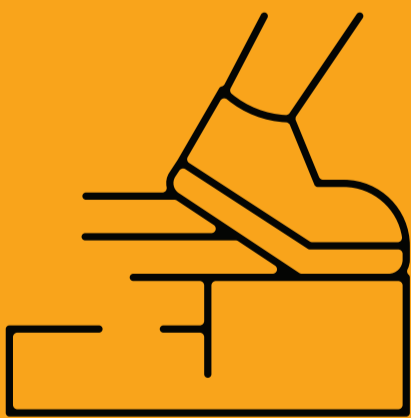

## Efficient 38kW Air-conditioning Unit

offering faster and more effective cooling of the passenger compartment.

## Retractable Lower Footrest

ensuring easy entry & exit for Kids.

## Anti-roll Bar

in both front and rear with radial tubeless tyres for superior comfort and safety.

To enhance passenger safety, the school bus is equipped with

## Seat Belts

on all seats, ensuring secure and comfortable travel for students.

## The school bus is equipped with a Parabolic Suspension System

which enhances comfort by providing a smoother ride, reducing shocks and vibrations, and ensuring better stability on uneven roads.

## DRL

for better visibility of vehicles from far distances, even in bad weather conditions.

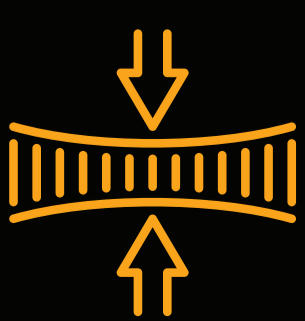

## Single Aluminium

roof sheet for better protection against environment and lifelong performance with zero maintenance.

## The school bus is built with a Robust Body Design

that complies with all AIS standards, ensuring maximum structural integrity and passenger safety in case of collisions or rollovers.

## Air Purifier

for the Saloon Compartment with PM2.5 filter (optional).

## Telematic Solution

to enhance school bus safety and provide more secure & efficient transportation experience for students and parents.
